## PROJECTS

---

**FoodWise** *Kotlin, Gradle*

- <https://github.com/rsrulloda/FoodWise>
- FoodWise is an android app concept developed as a group for the 2023 Google Solution Challenge to help reduce food waste. The idea of the app scans a receipt and keeps track of the expiration date of the foods purchased. If the food is close to its expiration date, then the app will notify you. The app also gives you an insight to your food wasting habits.

**Jisho Discord Bot** *Java, Gradle*

- <https://github.com/rsrulloda/jisho>
- Jisho is a Japanese word bot that provides a word of the day from a database. The word is displayed in English and Japanese scripts, along with definition and part of speech.

**Personal Website** *HTML/CSS, JavaScript*

- <https://rsrulloda.github.io/>
